CERTIFICATION
REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY
AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS
Must be completed by all subcontractors.

Federal Executive Orders 12549 and 12689 require the Texas Health and Human Services Commission (HHSC) to screen each covered potential contractor to determine whether each has a right to obtain a contract in accordance with federal regulations on debarment, suspension, ineligibility, and voluntary exclusion. Each covered contractor must also screen each of its covered subcontractors.

In this certification "contractor" refers to both contractor and subcontractor; "contract" refers to both contract and subcontract.

By signing and submitting this certification the potential contractor accepts the following terms:

1. The certification herein below is a material representation of fact upon which reliance was placed when this contract was entered into. If it is later determined that the potential contractor knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, or the HHSC may pursue available remedies, including suspension and/or debarment.
2. The potential contractor will provide immediate written notice to the person to which this certification is submitted if at any time the potential contractor learns that the certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
3. The words "covered contract", "debarred", "suspended", "ineligible", "participant", "person", "principal", "proposal", and "voluntarily excluded", as used in this certification have meanings based upon materials in the Definitions and Coverage sections of federal rules implementing Executive Order 12549. Usage is as defined in the attachment.
4. The potential contractor agrees by submitting this certification that, should the proposed covered contract be entered into, it will not knowingly enter into any subcontract with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, and/or the HHSC, as applicable.

Do you have or do you anticipate having subcontractors under this proposed contract? Yes ☐ No ☐

5. The potential contractor further agrees by submitting this certification that it will include this certification titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion for Covered Contracts" without modification, in all covered subcontracts and in solicitations for all covered subcontracts.
6. A contractor may rely upon a certification of a potential subcontractor that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered contract, unless it knows that the certification is erroneous. A contractor must, at a minimum, obtain certifications from its covered subcontractors upon each subcontract's initiation and upon each renewal.
7. Nothing contained in all the foregoing will be construed to require establishment of a system of records in order to render in good faith the certification required by this certification document. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
8. Except for contracts authorized under paragraph 4 of these terms, if a contractor in a covered contract knowingly enters into a covered subcontract with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, Department of Health and Human Services, United States Department of Agriculture, or other federal department or agency, as applicable, and/or the HHSC may pursue available remedies, including suspension and/or debarment.

PREAMBLE

Federal legislation, Section 319 of Public Law 101-121 generally prohibits entities from using federally appropriated funds to lobby the executive or legislative branches of the federal government. Section 319 specifically requires disclosure of certain lobbying activities. A federal government-wide rule, "New Restrictions on Lobbying", published in the Federal Register, February 26, 1990, requires certification and disclosure in specific instances and defines terms:

Covered Awards and Subawards--Contracts, grants, and cooperative agreements over the \$100,000 threshold need (1) certifications, and (2) disclosures, if required. (See certification term number 2 concerning disclosure.)

Lobbying--To lobby means "to influence or attempt to influence an officer or employee of any agency (federal), a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with any of the following covered federal actions:

- the awarding of any federal contract,
- the making of any federal grant,

Limited Use of Appropriated Funds Not Prohibited--The prohibition on using appropriated funds does not apply to activities by one's own employees with respect to:

- liaison activities with federal agencies and Congress not directly related to a covered federal action;
- providing any information specifically requested by a federal agency or Congress;
- discussion and/or demonstration or products or services if not related to a specific solicitation or a covered action; or
- professional and technical services in preparing, submitting or negotiating any bid, proposal or application for a federal contract, grant loan or cooperative agreement or for meeting legal requirements conditional to receipt of any federal contract, grant, loan or cooperative agreement. (The prohibition also does not apply to such services provided by nonemployees for the same purposes.)

Professional and Technical Services--Professional and technical services shall be advice and analysis directly applying any professional or technical expertise. Note that the professional and technical services exemption is specifically limited to the merits of the matter.

Other Allowable Activities--The prohibition on use of federally appropriated funds does not apply to influencing activities not in connection with a specific covered federal action. These activities include those related to legislation and regulations for a program versus a specific covered federal action.

Funds Other Than Federal Appropriations--There is no federal restriction on the use of nonfederal funds to lobby the federal government for contracts, grants, and cooperative agreements.

Applicability of Other State and Federal Requirements--Neither the government-wide rule nor the law affect either (1) the applicability of cost principles in OMB circulars A-87 and A-122, or (2) riders to the Texas State Appropriations Acts which disallow use of state funds for lobbying.
