University Health Palo Alto and Retama Projects

Two Projects. Two Contractors. One Location. One Networking Event.

With two new projects starting under University Health, Turner Byrne SLM, Joint Venture, and Layton Construction have teamed up for a joint networking event to enhance our collective subcontractor diversity outreach.

Please join us as we discuss exciting opportunities for all trades available through these projects and learn more about helping us achieve our 40% SWMBVE, 75% local participation goals.

Layton Construction

University Health Retama Community Hospital

Overview & Schedule

The University Health Retama Community Hospital and the University Health Palo Alto Community Hospital are 160-bed hospitals with approximately 480,000 square feet. In addition to the hospitals, medical office buildings will also be constructed spanning roughly 105,000 square feet. Each building will be up to five stories, while the site includes parking for over 2,500 vehicles.

Preconstruction interaction with the design is currently underway and will continue through March 2024. Construction will begin in the first quarter of 2024 and will follow a 30-month schedule. Both hospitals will include:

- Emergency Operating Rooms
- Pre-Op
- PACU
- Sterile Processing
- Clinical Lab
- Shell Space
